Assistant Commissioner For Patents Washington, D.C. 20231 Sir:

PRELIMINARY AMENDMENT

Applicants file herewith the above application. Please amend the application as follows.

IN THE CLAIMS

Please cancel claims 1-10 without prejudice.

Please add the following new claims.

11. A method for motion estimation in a digitized image having pixels, comprising: grouping pixels in picture blocks,

in which the pixels are grouped to form at least one first picture area and one second picture area;

wherein first motion estimation is carried out in a first search area for at least one picture block in the first picture area to determine a first motion vector whereby movement of the first picture block is described in comparison to the first picture block in a preceding predecessor picture and/or in comparison to the first picture block in a subsequent successor picture;

wherein second motion estimation is carried out in a second search area for at least one second picture block in the second search area to determine a second motion vector whereby movement of the second picture block is described in comparison to the second picture block in a preceding predecessor picture and/or in comparison to the second picture block in a subsequent successor picture;
